

CALL TODAY!

The Acessa Patient Support Program is HIPAA compliant, and can promptly answer your questions and begin working directly with your insurance company.

Product Information:

In November, 2012 the U.S. Food and Drug Administration (FDA) approved the Acessa System for use in percutaneous, laparoscopic coagulation and ablation of soft tissue, including treatment of symptomatic uterine fibroids under laparoscopic ultrasound guidance. The procedure, global fibroid ablation uses radiofrequency volumetric thermal ablation to treat symptomatic uterine fibroids.
